Furniture & Ceramics

Twenty years of bathroom obsession

We understand bathrooms. Over 20 years the bathroom has evolved from a practical space for washing and cleansing to an emotional one focused on relaxation and rejuvenation. In response, Crosswater has curated an extensive range of products to delight our customers, always.

Our high quality design-led furniture collection caters to the essentials of bathroom storage, including a wide selection of basin units, mirrors and cabinets, together with a premium selection of bathroom towel warmers and those luxury finishing touches that transform everyday bathing routines into an indulgent experience.

All this, combined with a stylish selection of high performance toilets & countertop basins available in a multitude of finishes including new Matt White ensures that you have all the inspiration to create your perfect bathroom experience.

Choosing your Bathroom Furniture

Before looking for furniture, think about what you will need to put away in the bathroom itself.

Bathroom furniture should be stylish whilst comprising great construction and performance qualities and above all having the ability to provide storage space for an entire family today and tomorrow. Toilet rolls, toiletries, cleaning products, cosmetics and children's bath toys; try to think about the future, as the family grows will you need more space? If so, choose the largest storage furniture to fit your bathroom, then you don't have to try to squeeze extra furniture in later.

step 1 CHOOSE A SIZE AND TYPE

The best bathroom furniture includes storage space below whilst the basin sits above. Wall hung furniture means the furniture is off the floor, giving the impression of extra space and a sleeker more stylish bathroom which is easy to clean and ideal for a busy family bathroom. Cloakroom units maximise space in smaller rooms. All Crosswater wall mounted furniture is fully load bearing to a minimum 100kg.

Floor standing bathroom furniture can come with cupboard doors or drawers. These units maximise storage by going right down to the floor and can also have the benefit of hiding any unsightly pipework. All Crosswater premium furniture units are supplied pre-assembled and constructed from extremely strong 18mm board.

Additionally, mirrored cabinets are available and combine two must-haves in one, plentiful space for regularly used toiletries or other smaller items that might get lost in larger cupboards and prerequisite over basin mirror ideal for helping with make up and shaving. If it's just a simple cabinet or mirror you require, Crosswater has a wide selection of standard and illuminated versions.

step 2 CHOOSE A FINISH

Crosswater offers many styles to match either a modern or traditional bathroom design perfectly. Contemporary bathroom furniture is often white and frequently glossy in finish, which will reflect light to make a small bathroom feel bigger. Like white sanitaryware, furniture in this colour is also a neutral backdrop which allows you to add colour with towels and other accessories.

Some finishes feature as standard a ground-breaking non-toxic and permanent antibacterial treatment called ACTIVE guarantees unlimited protection as the treatment is permanent and under tests reduces the proliferation of common bacteria by more than 99%. You can identify these by looking out for the following icon.

Striving for something different? Look out for Crosswater furniture in Storm Grey Matt, Blue Smoke Matt, or Quartz, which are all finished with a tough protective lacquer and offer a striking contrast to the basin and toilet. Alternatively, consider adding a more natural feel to your furniture with a choice of seven wood-look laminate finishes or real wood veneer options. All add a warm contrast to rooms that are predominantly white.

Solid Colour Finishes

Authentic Wood Decor

Real Wood Veneer

REAL WOOD VENEER

All Crosswater real wood veneer furniture finishes are produced from sustainable sources with a specially formulated anti-UV varnish to prevent the wood from fading. The unique nature of real wood veneers means there will always be variance in tone, grain and colour appearance. This is just part of the enduring beauty of real wood veneer furniture but does mean that when ordering you should consider ordering all components at the same time to get the best chance of sourcing products from a similar batch.

WARRANTY

All Crosswater furniture carries a reassuring 5-year warranty. However, some ranges offer a longer 10-year warranty. These ranges feature higher moisture-resistant qualities using polyurethane adhesives on the edge finishes. These adhesives are also used in garden furniture and double-glazed window units where water resistance is critical and also offer a further benefit, a virtually invisible 'zero bond line'. This technology delivers outstanding thermal stability and excellent adhesion for a long life.

Choosing your Basin

Crosswater basins are available in wide range of styles, installation types, materials and finishes.

In our premium 'Gallery' collection finishes range from timeless gloss white, modern matt white and grey, to stunning platinum, and the beautiful Carrara Marble and Travertine effect.

Crosswater Gallery basins use materials such as fine fire clay allowing for more complex designs and super-slim edge profiles, cast marble which offers a wide range of colour finishes and super strong scratch proof PLUS+TON®. All Gallery basins are stain-proof, limescale resistant, anti-bacterial and 100% recyclable.

ideal for worktops COUNTERTOP

Countertop basins are the ideal choice if you want to create a luxury style. Available in a range of shapes, this type of basin has been designed to be fitted on top of a worktop or solid surface, Crosswater's offer includes ranges with a tap hole and some without. No tap hole variants are usually teamed with a tall monobloc or wall mounted mixer tap.

Tall Monobloc

Wall Mounted

flexible design BACK TO WALL COUNTERTOP AND WALL MOUNTED

Countertop back to wall basins feature a flexible design that is suitable for mounting onto a solid surface requiring a hole to be cut and waterproofed. They can also be wall hung and have pre-drilled holes at the back for easy installation. Selected ranges can also function as a solid countertop above bathroom furniture.

Countertop

Wall Hung

minimal look UNDERMOUNT

Undermount basins are a favorite in many high end hotels, offering a simple yet stylish appearance with plenty of worktop space for taps, toiletries and soaps. Worktops need to be pre-cut to accept the basins and are secured to the underside of the worktop using metal brackets and silicone.

Deck Mounted 3 Tap Hole

Monobloc Mixer

BASIN WASTE OPTIONS

Depending on your design preference your basin will either have an inbuilt water overflow or not. It's important to choose the right waste to suit your basin as follows:

If your basin has an overflow, it will require a slotted basin waste to allow the water to flow into the waste. If you have no overflow on your basin, you need an unslotted waste. Crosswater also offer a universal waste which is compatible with most slotted and unslotted basins. Please use the matrix on the following page to ensure you select the correct waste.

Slotted

Unslotted

Universal

Crosswater taps COMPLEMENTARY BRASSWARE

Selecting the right tap for your basin is essential to achieve your desired look and performance. Always select the basin before the mixer fittings and ensure you choose a washbasin that can accommodate the style and size of your choice of mixer. When choosing a basin and mixer, consider your water pressure. Higher water pressures or pumped water supply systems will influence the suitability of your chosen tap and basin, so take note of your water pressure. A high pressure reducing valve or flow restrictor will give you added flexibility.

Choosing your Toilet

Crosswater toilets are available in many design styles so you can easily create a look that's perfect for your bathroom.

Each toilet is made from 100% non-porous vitreous china and is designed to conceal all pipework for a clean and simple design. Crosswater toilets meet all required performance and quality standards. All Crosswater toilets have matching soft close seats and covers which are sold separately.

Along with Matt White, the range offers Gloss White and a Platinum finish.

easy installation

CLOSE COUPLED TOILETS

Close coupled toilets, once the most common due to ease of installation consist of 2 parts, where the cistern including flushing mechanism is fitted directly on top of the toilet pan. In our premium collections all close coupled toilets have a closed back to wall design to conceal pipework from view, ensuring a neater finish and easier cleaning and all feature efficient dual flush mechanism.

maximise space

BACK TO WALL TOILETS

Floorstanding back to wall toilets do not need any type of support frame as they are fitted to the floor and allow the toilet to have a smaller footprint in order to maximise room space. They do require the a cistern to be built into the wall or installed inside toilet furniture. Back to Wall toilets offer the best solution for a straight replacement of a close coupled toilet.

Details on Crosswater's range of concealed cisterns and toilet furniture can be found on page 182.

Concealed Cistern
(In wall)

Concealed Cistern
(Toilet furniture)

modern look

WALL HUNG TOILETS

Wall hung toilets feature all the space-saving benefits of a back to wall toilet and are designed to be fitted with a supporting installation frame which contains an in-built cistern. These frames can support a weight of up to 400kgs for complete peace of mind and allow the user to adjust the height of the toilet to suit all the family. Details can be found on page 180.

Raising the toilet off the floor creates the illusion of even more space and promotes better hygiene by making cleaning the bathroom easier.

The in-wall frame can be installed in a wall cavity, or using one of our toilet furniture units on the wall removing the need for costly installation.

Smart rimless design

EASIER CLEANING & IMPROVED HYGIENE

The Crosswater toilet range presents many different and often unique styles. Some feature a tried and tested closed/box rim providing great bowl flushing.

The latest ranges are offered with a smart 'rimless' bowl format. Rimless design means 100% of the flush water is used to clean the bowl also creating not only a better looking toilet but more importantly, one which is easier to clean, resulting in much better hygiene as there is nowhere for bacteria or lime scale to accumulate, no matter whether you choose a Gloss White or Matt White glaze.

SOFT CLOSE SEATS

All Crosswater toilets feature ergonomically designed, stylish whisper-quiet soft close seats and covers, colour matched to the ceramic. Produced from high quality materials, Crosswater seats remain whiter for longer and are easy to clean.

Create a warm and inviting bathroom ambiance

This wood-like finish creates a warm and inviting bathroom ambience. Each piece features authentic elements including knots, inclusions and chalky limed accents. Finished with matching edging and a birchwood drawer set. Paired with brushed brass handles and brassware, you can create a modern twist on a natural finish.

A new standard in furniture and basin design

This silky smooth matt grey finish has anti-fingerprint properties and is scratch and impact resistant, great for a family bathroom. Portland is a medium, cool grey and its simple internal accents create a perfect match for any colour brassware, handle or accessory. The furniture comes complete with a long lasting and easy to clean textured anthracite melamine drawer box.

Taking white bathrooms to a new level

This smooth high gloss finish reflects and maximises natural light into your bathroom. Additional UV coating technology means the surfaces are more resistant to scratches, heat, impact and yellowing, retaining the beautiful finish for longer. The plywood style décor edging and classic birchwood drawer finish adds that touch of luxury to any bathroom.

Note

When ordering more than one American Walnut unit we strongly recommend taking delivery of products at the same time.

This is genuine wood veneer, manufactured in carefully controlled batches to achieve as close a colour and tone match as is possible with real wood.

To ensure full use of drawers we recommend using the furniture trap BTR0410W see page 147.

Svelte basins should be cleaned using our Mineral Marble Basin Cream
 Cleaner/ Polish 150g bottle SD150RW **£25.00**

real wood veneer

Svelte is available in real wood veneer furniture finishes are produced from sustainable sources. The characteristic nature of natural veneers means there will be variance in tone, grain and colour appearance, this is just part of the enduring beauty of wood veneer furniture.

why choose Svelte?

Combining sumptuous curves with elegant finishes, the Svelte furniture collection is a sleek and beautifully versatile range that will suit any bathroom scheme.

- Available in four widths: 1200, 1000, 800 & 600mm

Basin & Tap Layout Options

The 1000 & 1200mm console is supplied as standard for the centre basin; each option below can be easily achieved during installation.

Single Basin Left Aligned with wall mounted tap

Single Basin Right Aligned with tall tap

Single Basin Left Aligned with deck mounted tap

Two basins with deck mounted taps

- A. Single Basin Left Aligned (1000 & 1200mm consoles)
- B. Single Basin Right Aligned (1000 & 1200mm consoles)
- C. Single Basin Centre Aligned (800, 1000 & 1200mm consoles)
- D. Two Basins (1000 & 1200mm consoles*)

*depending on basin chosen

WE STRONGLY RECOMMEND TWIN BASIN FORMATS ARE INSTALLED ONLY ON A SOLID WALL.

Suitable for use with wall mounted, extended basin mono or standard basin mono on a basin tap ledge. Always use an extended basin waste see page 147.

More detailed information can be found at www.crosswater.co.uk

To ensure full use of drawers we recommend using the furniture trap BTR0410W see page 147.

Solo

A high-gloss, soft grey finish blends perfectly with white bathroom suites and enables you to experiment with coloured walls or tile features. With its neutral tones, the quartz vanity unit will also complement a monochrome theme with style. Its light tone and gloss finish reflects light and creates an illusion of more space in compact areas or bathrooms.

matching
brassware

Solo brassware is designed to beautifully complement the Solo furniture collection.

Room for all your storage needs

A generously deep single drawer offers plenty of space to store away clutter, whilst the soft close, push-to-open door allows easy access to the interior with a smooth gliding motion. Complete with the 'odour-free' waste fitting, the Elite White gloss basin unit is completed with the coordinating Pier monobloc tap in contemporary chrome and white.

COMPLEMENTING RANGES

To ensure your bathroom functions and looks as good as you have expected it to, we have carefully selected ranges that not only complement each other beautifully, but ensure that their designs are also compatible. For a truly harmonious scheme, browse the ranges in the table opposite to help you select the best ranges to suitably mix and match.

The above Crosswater basin list is not definitive, merely those best suited for our furniture collections. Recommend extended waste when fitting a basin to Seattle and Glide II worktops.

MADE IN EUROPE
DESIGNED FOR THE UK

Gallery Basins

A collection of the finest ceramic basins.

Our new collection of beautifully formed 'Gallery basins', inspired by ancient fine art, offer a pioneering ceramic design with stunning aesthetics.

The premium 'Gallery' collection finishes range from gloss white, matt white and grey to stunning platinum, beautiful cast Carrara Marble and Travertine.

Crosswater Gallery basins use materials such as fine fire clay allowing for more complex designs and super-slim edge profiles, cast marble which offers a wide range of colour finishes and super strong scratch proof PLUS+TON®. All Gallery basins are stainproof, limescale resistant, anti-bacterial and 100% recyclable.

A TRADITIONAL TOUCH

Not only useful for optimising any available surface space, inset basins are also a great choice for showing off a classic stone worktop and complementary basins taps, like these from our beautiful Belgravia collection. See website for more details.

Basin Wastes

Our basin wastes can be fitted with ease into either slotted or unslotted basin styles. Truly versatile with little maintenance, they will work with a variety of basin materials including thin ceramic, cast marble or glass.

suite dreams

Sanitaryware that does not compromise on aesthetics, our beautifully crafted range of suites combines form and function for everyday use. All of our Premium ceramic sanitaryware is manufactured in Italy yet designed specifically for use in UK bathrooms.

The perfect blend of expert hands, clay, water, air and fire.

NEW

Glide II

A new level of bathroom sophistication.

The quality, precision and refined proportions create beautiful shapes which complete the Glide II bathroom collection enabling real design consistency. As well as standard sizes Glide II toilets are available in an equally comfortable 'mini' variant which is a little wider but has 2" shorter projection for rooms where optimising space is critical.

Selected Glide II toilets are offered in a smooth and durable Matt White ceramic which provides a more luxurious and warmer feel. To complete the look a matching matt white soft close, whisper quiet seat and cover are available.

The smart rimless design creates not only a better-looking toilet but more importantly a cleaner and more hygienic toilet as there is nowhere for bacteria, limescale and grime to accumulate. Additionally, all Glide II toilets feature fully glazed internal waterways delivering complete cleanliness.

water saving technology
RIMLESS DESIGN

The Glide II Rimless Toilet completely revolutionises the concept of toilet flushing systems to guarantee maximum hygiene and cleanliness with powerful near silent flushing.

MADE IN ITALY
DESIGNED FOR
THE UK

All of our ceramic sanitary ware is manufactured in Italy yet designed specifically for use in UK bathrooms.

Pier

Short projection toilet for the smallest of spaces.

Small bathrooms no longer have to compromise when it comes to great design and first-class function. The Pier toilet, a contemporary yet very simple toilet, has the shortest projection on the market at a minimal 43cm. Not only compact, the seat is still extremely comfortable and fits perfectly in limited spaces, whilst the high-function flush performance is as good as it gets.

Introducing an innovation in ceramic glaze technology, Pier is expertly crafted from CERASLIDE®; a forward-thinking firing process that ensures the perfect surface consistency to resist stains, limescale, daily wear-and-tear and assist with flush performance. Teamed with the BATAFORM® anti-bacterial treatment, the combination ensures an impeccable level of hygiene alongside a luxurious gloss finish, ensuring all round wellbeing in the bathroom.

DESIGNED FOR
THE UK**

All of our ceramic sanitary ware is manufactured in Italy yet designed specifically for use in UK bathrooms.

Rimless technology

Rimless technology uses less flush water than a standard toilet so provides significant water savings for a normal family every day of the year. The dynamic motion of the water results in perfect toilet bowl cleaning with every flush with 100% of the water being used.

The innovative rimless design and fully glazed internal waterways means there are no hidden corners or holes, making cleaning your toilet much easier, and quicker for maximum hygiene and cleanliness.

Support Frames & Cisterns

Our support frame and cistern range is designed specifically for UK homes, featuring an array of innovative designs and installation features, which is why our products are renowned for excellence in design and quality.

layout versatility SYSTEMS FOR ANY SIZE BATHROOM

Whatever the size or shape of your bathroom, Crosswater fitting systems can be utilised in any bathroom to safely install a toilet that suits your lifestyle. The smart and versatile systems mean that you can take your design aspirations and make them a reality. Easily install a toilet right next door to a shower by having the cistern concealed in a wall, or fit the Toilet into an awkward corner with the ingenious angled bracket. The back-to-wall toilet is perfect for complementing the toilet cisterns when concealed within furniture or a cavity.

See page 180 for Wall Hung Toilet Frames.

simple installation SYSTEMS FOR ALL SURFACES

From large new build family bathrooms to modernising a bijou en suite, the ease of installing Crosswater flushing systems ensures that your project runs smoothly. Time and cost effective, frames can be built into a wall cavity or placed in front of a wall using a clever cistern surround. If you want to tile a wall, select a waterproof frame surrounds that can also be tiled. Alternatively, for a completely harmonised bathroom scheme, simply choose a surround to match your Crosswater furniture.

Concealed Toilet Cisterns
see page 182

wall hung support frames SPACE SAVING DESIGNS

Wall mounted toilets are becoming the favoured choice of style-savvy homeowners and designers. Open up the smallest of spaces or enhance larger bathrooms by creating more floor space, which instantly creates the illusion of space. For busy family bathrooms, it is also quicker and easier to clean.

See page 180 for Wall Hung Toilet Frames.

efficient QUIET & ECO-FRIENDLY

As with all Crosswater products, installation systems offer an array of outstanding features and benefits. All cisterns are extremely quiet with an option to install pads to deaden any sound even further. They also feature dual flush technology so you can choose how much water you use, which can also cleverly help you to save even more water by simply adjusting the larger flush to the reduced water volume setting. Plates are available in a choice of designs and colours to complement your bathroom scheme and to suit your taste.

Press the large button and flush with the entire water volume.

Press the Eco button and flush with a reduced three-litre volume.

CHOOSE DUAL FLUSH TECHNOLOGY
AND USE UP TO **40% LESS WATER**

Wall Hung Toilet Support Frames

Wall mounted furniture cleverly makes a compact bathroom appear less cluttered and more spacious. There is a range of frame sizes to suit larger rooms and a ultra slim designs for those seeking a more sleek, minimalistic look.

Epoxy power coated steel frame, tested to take up to 400kg weight

Large feet for easy rear fixing (specially designed for UK timber floor)

Supplied complete with all fittings for installation

Adjustable feet with rubber sound deadening pads

Full UK specification to Class 2

SMART DETAILS

There is a wide choice of flush plate styles available to beautifully complement any bathroom design. Completing a well-dressed bathroom, look to match brassware, toilet contours or décor, to suit your own personal taste. Compatible to both framed and concealed cisterns, they feature an ingenious yet simple connection method to ensure high performance and functionality every time.

An eco friendly option, the dual-flush function helps you reduce water consumption, whilst cisterns are supplied at 6 and 3 litres for further water saving capabilities. Part G compliant to meet water consumption regulations, all cisterns can be easily adjusted to reduce the larger flush volume to 4.5 litres after installation.

MIRRORS & CABINETS

on reflection

Essential for every bathing space, our design-led collection of mirrors and mirrored cabinets caters to both the practical and decorative requirements of the bathroom.

Illuminated Mirrors

The ultimate bathroom essential, no bathing space is complete without an illuminated mirror to assist with daily routines.

HEATED DEMISTER PAD

Most of the mirrors come with heated demister pads, making steamy mirrors a thing of the past. These pads heat the mirror to a few degrees above room temperature within 2-3 minutes, preventing the mirror from misting in even the steamiest of bathrooms. The demisting effect will spread approximately 10-20% further than the pad itself.

NO TOUCH INFRARED ON/OFF SWITCH

All Crosswater mirrors are equipped with a no touch infrared on/off switch situated on the side of the mirror, thus removing fingerprints from the mirror surface or pull switch.

IP44 RATED CLASS 1 RATED

All mirrors are IP44, Class 1 rated and suitable for installation in Zones 2 and 3 of a bath or shower room. See page 260 for more information on electrical safety and installation.

5MM MIRROR GLASS

PVC film backing safety glass complying to EN6206:1961 that avoids dangerous shards being created in case of an accident. A special treatment is also applied to the mirror edge that prevents the risk of mirror edges becoming discoloured.

LED LIGHTING

Providing superb function with fabulous decorative style, all mirrors feature the latest high luminosity, low energy consuming LED lighting. Cool White 6400k.

5 YEAR GUARANTEE

The majority of our illuminated mirrors come complete with a 5 Year Guarantee, which covers all manufacturing defects.

EXTRA FEATURES ON SELECTED MODELS

Bluetooth® speakers

Dimmable lights

Shaver socket

Important notes

Mirrors must be mounted so that the sensor switch is a minimum of 150mm from an adjacent wall or obstruction to ensure function of the sensor switch. If a mirror is mounted portrait, the sensor is located on the bottom right hand edge of the mirror. If mounted landscape, the sensor switch is located on the bottom left hand corner. All mirrors are IP44, Class 1 rated and suitable for installation in Zones 2 and 3 of a bath or shower room, see page 232 for more information on electrical safety and installation.

Glide II

A new range of mirrors featuring modern technologies, perfect for creating an optimum bathroom experience. In Glide II latest LED technology allows the user to change the colour temperature of the mirror from warm white to day light and every shade in-between to create your perfect bathroom ambiance whatever your mood. The demisting feature and charging socket for your toothbrush or a shaver completes this lovely bathroom mirror.

Mirrored Cabinets

Store away those everyday bathroom essentials discreetly and safely with our range of stylish mirrored cabinets.

ALUMINIUM CARCASS

Fully rigid, strong, easy to maintain, anodised aluminium carcass, perfect for use in humid bathroom conditions.

LED LIGHTING

Near natural truly practical low energy light source. No-flicker instant on and off illumination. IP44 rated. Cool White 6400k. (except Non-electric 60)

DOUBLE SIDED MIRRORED DOORS

Really practical head and shoulders height viewing. Double sided enables you to apply make up and shave even when the door is open. The mirror's edges are sealed to minimise the possibility of moisture damage.

SOFT CLOSE DOORS

Clatter and clunk free closing with fully adjustable soft closing hinges.

NO TOUCH INFRARED ON/OFF SWITCH

High-tech sensor switch, so no unsightly pull cord, discreetly positioned underneath the cabinet for simple use. IP44 rated. (except Non-electric 60)

5MM MIRROR GLASS

PVC film backing safety glass complying to EN6206.1961 that avoids dangerous shards being created in case of an accident. A special treatment is also applied to the mirror edge that prevents the risk of mirror edges becoming discoloured.

CONTINUOUS SHELF HEIGHT ADJUSTMENT

Intelligent shelf height adjustment allowing shelves to be adjusted to any height, without unsightly drilled holes.

5 YEAR GUARANTEE

The majority of our mirrored cabinets come complete with a 5 Year Guarantee, which covers all manufacturing defects.

EXTRA FEATURES ON SELECTED MODELS

Heated demister pad

Shaver socket

Chrome door pull

Important notes

All cabinets are IP44, Class I rated and suitable for installation in Zones 2 and 3 of a bath or shower room, see page 232 for more information on electrical safety and installation. Cabinets conform to BS EN 60598-1:2008+A11: 2009 and BS EN 60598-2-1:1989. Fluorescent feature electronic ballast, and are fast on off with minimal flicker effect.

NEW

Image

Beautiful outside, intelligent inside.

The Image range of bathroom cabinets sets new standards with innovative technology, classic design and proportions which contain ample space for all your storage needs. Each Image cabinet features double-sided fully mirrored doors for comfortable and expansive head and shoulders viewing. The full-width overhead LED light canopy provides outstanding brightness that can be changed from warm to cool to suit your mood. An extra LED light source illuminates the tap and basin on the underside of the cabinet.

Open the cabinet and find height-adjustable safety glass shelves with a stunning fully mirrored back. Additionally, the very latest LED technology appears on each interior side of the cabinet lighting to illuminate all your favourite items. Image cabinets also include a charging socket for shaver and toothbrush.

Summer Heating Elements

Also known as dual fuel or dual energy. Connected to a central heating circuit and including an electrical element that allows operation in summer months when the central heating is not in use.

Chrome heating elements

FUNCTIONALITY

These heating elements use the latest intelligent heating and safety technology. Featuring two temperature settings of 45°C or 60°C, an in-built electronic temperature sensor ensures precise control with a smart 2-hour timer featured as standard. Simple to use with a single control button for all functions, the device displays its current operating mode using multi-coloured LEDs. The heating element has very low power consumption when in standby mode 0.5w.

SAFETY

Featuring an active safety feature that initiates in the event of dry radiator operation, the heating element is equipped with a temperature sensor and thermal fuse (double overheating protection). The element will display warning indicators in the case of malfunction. Rated I, IPX5.

SLEEK AND UNOBTRUSIVE

A subtle add-on to your choice of rail, the elements fit easily inside the rail, blending seamlessly with the collector profile so becoming an integrated part of your towel warmer.

	Chrome Heating Element 300w RADX300C £210.00
	Chrome Heating Element 600w RADX600C £210.00

These elements are suitable for all Crosswater towel warmers, where an element can be fitted.

Standard heating elements

	Electric Element 150w RADX300 £80.00
	Electric Element 300w RADX350 £85.00
	Electric Element 600w RADX700 £99.00

All Summer heating elements are IP54 rated. These elements can be used in an all electric installation, we do not offer this service.

Summer heating elements are supplied with T Piece.

Please refer to the bathroom zone diagram when using electrical components within the bathroom environment, see page 232. The summer element is equipped with a thermal fuse that will cut out at 65C, with a total shut down safety setting at 78C.

These elements are suitable for all Crosswater towel warmers, where an element can be fitted. Heating elements comply with BS EN60335-2-73:2003

Metallic Black Matte / Soft White Matte Finishes Oxsilan® providing up to 65% more protection than standard zinc coating. High quality double layer Electro-static powder coating application for 100% surface coverage, massively reducing wear and tear and greater product lifetime. The most efficient heat output up to 20% higher than chrome. Self coloured metal wall fixings.

Chrome Finish Oxsilan® providing up to 65% more protection than standard zinc coating. Each rail is 100% wheel polished and sandblasted then electro chemically de-greased and bleached to prevent oxidising, ten: Nickel Primer 3micron / Copper coat 20-25 micron (for flatter surface and enhanced protection) / Nickel 20-25 micron / Chrome finish 0.5 micron - Result level 10 chrome plated finish.

Towel Warmer projection is between 75 - 100mm. Supplied with complete wall fixings and manual air vent. Manufactured from high grade mild steel conforming to EN 10305. Geometrical and surface finish - Round EN 10234 / EN ISO 4287, Flat Tube EN 10233 / EN ISO 4287, D Profile EN 10233 / EN ISO 4287. Fitted with 1/2" BSP connections. Tested to EN 442::T = 50K. All outputs certified to EN 442. To make an approximate conversion from T=50K to T=60K multiply outputs by 1.2.

**Summer Heating Elements are supplied with T Piece.

Electrical Information

The diagram below is supplied as a guide to Bathroom Zones as referred to in IP ratings of the over mirror lamps and electric heating elements. Please refer to the latest edition of BS 7671:2008(2011) to ensure conformity.

It is important to install light fittings and electric Towel Warmer elements in the correct bathroom zone i.e. the zone referred to in the IP rating of the element. This is not an installation guide and reference should be made to the latest edition of the IET Wiring Regulations or a qualified electrician member of NICEIC or IET.

Zone 0 is inside the bath or shower tray itself. Any appliance used in this zone must be rated at least IP67 which is total immersion proof.

Zone 1 is the area above the bath or shower tray to a height of 2.25m from the floor. In this zone a minimum rating of IP44 is required and elements must also be protected by a 30mA residual current device (RCD) to protect the circuit. The electrical connection to the power supply for these appliances must be in Zones 2/3 of the bathroom in compliance with BS 7671:2008(2011) - IEE Wiring Regulations.

Zone 2 is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone an IP rating of at least IP44 is required. In addition it is good practice to consider the area around a washbasin, within a 60cm radius of any tap to be considered as zone 2.

Crosswater IP44 lamps come without a pull switch, and are designed to operated via an existing and suitable room light switch.

Failure to have electrical products installed and certificated by a qualified electrical engineer will invalidate any product guarantee.

For full details reference should be made to the latest copy of the IEE wiring regulations and all applicable British Standard and European norm specifications.

Terms & Conditions

Prices

This price list supersedes all previous publications with goods being invoiced at prices ruling on date of despatch. Prices are subject to alteration without notice and include VAT.

Delivery

Orders in excess of £50.00 nett invoice value will not be subject to carriage charge and will be delivered within two working days from receipt of order. Orders below £50.00 will be subject to a fixed charge of £5.00. Any claims for non-delivery, shortage or damaged goods must be reported in writing to the company within 14 working days from date of delivery. Such claims will not be accepted for deliveries to a third party delivery address.

Returned goods

Requests to return goods must be made in writing to Returns.Department@crosswater.co.uk and include the product details, purchase order number and reason for return.

Requests for items that are damaged externally or missing items must be received within 30 days.

Requests for items not required with packaging in pristine condition must be received within 45 days and will be subject to a 12.5% re-stocking charge.

Requests for items not required with packaging in poor conditions must be received within 45 days and will be subject to a 12.5% re-stocking charge and an additional 12.5% re-packing charge. Requests for items that have internal product damage must be received within 30 days.

Special orders are non returnable. Collection will only be made from point of delivery.

Damaged will not be collected once they have been sent to a third party.

Retention of title

Ownership of goods shall remain in the Company until full payment has been received for all goods comprised in this contract. If any goods are re-sold before payment is made the Company's right of ownership shall be transferred to the proceeds of sale or to the claim for such proceeds.

Liability

All quotations are given and goods sold subject to the conditions that the seller's liability is limited to goods proved to have been defective in material or workmanship when they left the seller's works. No claim will be accepted where goods have not been used for the purpose for which they were intended, not fitted correctly, not maintained to the seller's recommended standards or have been abused or misused.

Errors & omissions

In the interest of continuing design and development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

Product compatibility

Whilst the majority of Crosswater products are compatible, care should be taken on product selection prior to ordering to avoid installation issues. Technical drawings are available on our website or on request.

General

The colours and finishes reproduced in this brochure are as accurate as the photography and printing process allows but

may vary from the actual colours. Product sizes stated are nominal and should be checked against product. It is strongly advised that all bathrooms are well heated and ventilated.

It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided. Failure to comply with the recommended fitting instructions will invalidate the guarantee.

Easy installation

All furniture ranges incorporate a factory fitted hanging system that allows safe and simple installation. Please ensure the correct wall fittings are used on solid or stud walls. Some furniture products are reversible for left or right hand door opening.

Installation notes

When installing a wall hung pan or wash basin please ensure that appropriate fixings or suitable framework are used. When purchasing a wall hung pan, wash basin or bidet on its own Crosswater does not supply any fixings. We strongly recommend all furniture and ceramics be fitted to a tiled surface, not tiled up to, this will assist any future maintenance. Due to the weight of some products you must ensure that the walls to which fixing is to be carried out are of a suitable construction to support the product.

Suites and basin ceramics

Vitreous China is an extremely hard, non-porous product; but it is also breakable and therefore must not be put under stress during installation. Basin waste fittings if over tightened will create stress within the ceramic material which may in time cause the failure of the product. Waste fittings should be carefully sealed in silicone and the back nut hand tightened, one additional and final quarter turn using a suitable spanner is sufficient to create the required watertight seal. Care should also be taken when fitting brassware to tap platforms in order to prevent similar stress related failures. All products should be inspected before attempting installation.

Care and cleaning

Furniture, ceramic, glass, accessories and radiators are made to the highest standards, by following the simple guidelines below will provide you with many years of enjoyable service.

General:
NEVER use products containing bleach, caustic soda, cleaners of a gritty or abrasive nature or so called "glass and mirror" cleaning products.

Furniture:
Apart from regular wiping off the furniture units can be cleaned with a moist soft or micro fibre cloth. Any stubborn marks can be removed with diluted mild detergent e.g. washing up liquid.

Mirrors, cabinets and light fittings:
Clean only with a micro fibre cloth, NEVER use "glass and mirror" cleaning products

Sanitary ware, toilet seats, glass basins and ceramics:
Sanitary ware/ceramics should be cleaned after use by applying a little cream-type cleaner using a sponge or damp cloth and rinsed thoroughly with clean water. In hard water areas a good quality lime-scale remover can be applied.

Toilet seats should only be cleaned using a diluted mild detergent e.g. washing up liquid or warm non-abrasive soapy water; products containing bleach can lead to staining. Toilet seat hinges should be cleaned ONLY using a moist soft or micro fibre cloth. Any stubborn marks can be removed with diluted mild detergent e.g. washing up liquid.

Cast mineral resin basins:
The high gloss polished finish is easily cleaned using a diluted mild detergent e.g. washing up liquid or warm non-abrasive soapy water; in hard water areas a good quality lime-scale remover can be applied. Accidental spillages of household chemicals, nail polish, hair dye should be removed immediately, clean the surface with warm soapy water and wipe dry.

We recommend regular application of Crosswater Mineral Basin Cream Polish SD150RW this will assist in preventing the build up of lime scale and retain the gloss lustre.

Towel Warmers:
Should be cleaned when cold with a moist soft or micro fibre cloth. Any stubborn surface or oxidation marks can be cleaned with Maas® Metal Polishing Crème, that will leave a long-lasting, fingerprint-repelling protective finish.

Product guarantee*

All Crosswater products unless otherwise stated carry a 15 year guarantee, which covers all manufacturing defects. This guarantee does not cover damage during fitting or misuse.

- The guarantee is only available to original purchasers who have proof of purchase.
- If the product has been installed, Crosswater must be given the opportunity to inspect the product in the installed condition.
- If the product is defective in materials or manufacture the original purchaser must contact our Technical Department within 30 days of the fault occurring. If the fault is not resolved the goods should be returned to Crosswater and at our discretion we will refund the purchase price, repair and return the goods to you or send new goods or parts to you as a replacement, this shall constitute our sole obligation under this guarantee.
- Due to a continuous development program. If in our opinion the product has failed under the terms of the guarantee and a replacement is offered but identical goods are no longer available, Crosswater will replace it with our nearest equivalent product.
- This guarantee covers normal use; it does not cover faults caused by incorrect installation, wilful damage, neglect, misuse, modification, inappropriate cleaning, accidental damage and other events outside Crosswater control.
- The guarantee does not cover any product that has been altered or modified in any way without the prior written consent of Crosswater.
- If a claim is made under this guarantee, and the defect is not due to faulty materials or manufacture, Crosswater reserve the right to charge the customer at the current hourly rate in respect of any service engineer time.
- The guarantee is only valid for products purchased, installed and used in the United Kingdom.
- The guarantee does not cover ex-display units.
- The benefit of this guarantee cannot be transferred to a third party.

The guarantee is in addition to and does not affect your statutory rights.

In the interest of continuing design, development and product improvement, Crosswater reserve the right to change colour, designs and product specifications without prior notice.

*Crosswater products carry guarantees against manufacturing defects as follows:
Sanitary ware, ceramic and cast marble basins 15 years;
PU bathroom furniture 10 years, other furniture 5 years,
Illuminated mirrors, bathroom cabinets and towel warmers 5 years.
Cistern fittings, radiator valves and toilet seats 1 year.

General wear and tear to any of the above items would be considered a specific exclusion.

Visit your local bathroom specialist.

Expertise & design

Specialist bathroom retailers can offer expert assistance with room layout design and technical considerations. Many will do this in the comfort of your own home and can provide full 3D design plans so you can visualise and create your own perfect bathroom space.

Experience the products

The purchase process is an emotional one. Specialist showrooms allow you to touch and feel a wide variety of bathroom products in relaxed surroundings whilst gaining inspiration from knowledgeable professionals who will explain the benefits of each product and make recommendations that match your personal preferences.

Reassuring aftersales care

Once your perfect bathroom is installed, local bathroom specialists offer an easy and personal point of contact for any aftersales support you may need, delivering complete peace of mind.

Need more bathroom inspiration?
